*If you have a sub account that you want to use for your preauthorized payment, you will need to remove the '0' in the account type code and add a 1, or 2, or 3, through 9. For example, if you have a MasterPlan Lite 2, your account type code would be 72. If you have a Maximizer Lite 1, your account type code would be 51. If unsure of your account type code, you can view your account types on online banking (look for the number after your account type), review the bottom encoding on a personal cheque (see image above) or call 1.800.665.5728 for help.
